Executive Coaching Packages

CLEAR PATH PROGRAM

What is Executive Coaching?

Just like elite athletes who rely on coaches to reach the highest levels of performance, top scientific leaders like you need the same kind of support to perform at their highest level. Through EDC's Executive Coaching you'll sharpen your focus on execution while receiving performance enhancing training to meet and exceed personal and professional goals. By focusing on outcomes; we'll also hold you accountable, push you to do more, and keep you motivated to strive for more.

What should you expect during a coaching session?

Sessions are 60 minutes long and begin with a recap or summary of active challenges. Situation are assessed using EDC's conceptual frameworks to optimize your effort, commitments and strategy according to your personal goals and professional milestones. While working through challenges you'll find greater understanding and success while transitioning from a reactive problem solver to a proactive leader.

Session Frequency

Weekly

For situations requiring concentrated attention

eg. Onboarding, negotiations, conflict resolution, program implementation, etc.

Bi-Weekly

Well suited for most development situations providing consistent results and active application of concepts.

Monthly

For results consistent with maintenance of learned frameworks and more advanced applications.
